Dear M. Barfield,

We first would like apologize for our late answer to your last sending dated Marc 31, 2007 : we are a very small entity (my wife and I) and have met a lot of family thickness problems during last months (we apologize for our poor english too !).

We send you here attached in 2 separate fax as explained in our last telephone call to your Office :
- a new draft of our Patent request (Description, Claims & Abstract) including corrections concerning the presentation of our our chair system we've try to summerize and explain clearer
- the 3 Figures corrected as well

We hope that this new presentation will reach your remarks .

We thank you in advance for confirming us if we may communicate with you through fax or email (maybe easier) before sending again officially by mail our corrected Patent request and would deeply appreciate to know if any extra delay for our Patent deposit is possible, in order to present correctly our demand to US Patent Office.

Thanking your for your answer,

Very truly yours,

Yann GUEHRIA, Applicant
